

Application Engineer

Material Handling Automation Systems

Job Position: Full Time in Office Position

Job Overview

SI Systems, an innovative supplier of warehouse automation solutions, seeks an experienced Automation Application Engineer who will be responsible for all stages of our automation sales production cycle. **A demonstrated record of accomplishment in a relevant industry is required for this position.** Located in the Allentown/Easton PA area we offer the right candidate an opportunity to participate in exciting, challenging work where you will have a direct and purposeful impact to help our clients and your career growth and development.

This position requires full onsite office presence.

Job Functions

- Develop and maintain client relationships through direct sales efforts
- Meet and exceed client needs by analyzing, designing, and delivering specialized automation solutions
- Providing pre-sales and post-sales support to our clients
- Analyzing and testing client data and products
- Collaboration with engineering and software teams to develop and prepare comprehensive automation system proposals
- Coordinate and develop relationships with external automation technology suppliers as needed to develop SI's automation system proposals
- Achieve goals and meet deadlines.

You are the right candidate for the position if you have:

- Ability to work individually and as part of a team
- Strong analytical, problem solving and troubleshooting skills
- Proficient in MS Office products and CRM
- Demonstrated ability to work well under pressure and with deadlines
- Ability to visualize a process or system from concept to development
- Strong planning, organizational and decision-making skills
- Strong communication and interpersonal skills to interact with clients, vendors, and other stakeholders
- Ability to undertake regional travel

Required Skills:

- Bachelor's degree in mechanical engineering or relevant discipline
- Minimum three (3) years of experience as an application engineer responsible for the development of automation systems and material handling equipment
- Experience with:
 - AutoCAD
 - Automated Picking Technology systems and solutions
 - Mechanical/electrical knowledge of integrated material handling systems

Travel Requirements:

- 10% overnight travel (travel expenses paid by SI Systems)
- Must have a valid driver's license

In addition to doing exciting work, we offer the following benefits:

- Health, dental, and vision insurance
- 401(k) Retirement plan with company matching.
- Flexible work schedule
- Life insurance
- Vacation/Holiday Pay

- Monthly Company lunches
- Coffee/Beverages
- Potential Annual Profit Sharing Bonuses
